

McGraw-Hill Connect and Moodle Integration

If the Moodle course you have imported has existing placeholder links for McGraw Hill Connect assignments (i.e. you've imported a Primary/Master course) you can relink those placeholder links if:

- You have been given a copy of the master Connect section and
- All assignments in Moodle have the same names as the assignments in the Connect section.

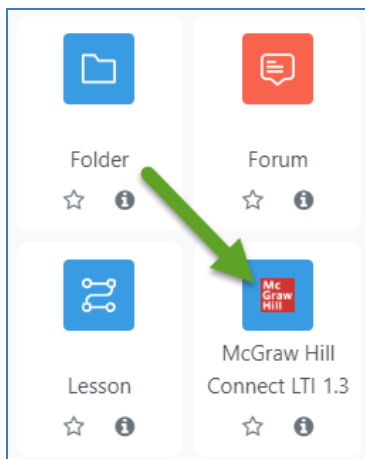

1. To begin the setup, log into Moodle and navigate to the course you wish to pair with Connect. In your Moodle section, go to the topic where you have a Connect assignment. Next, toggle on **Edit mode**.

2. Select **Add an activity or resource** at the bottom of the topic.

3. From the list of activities, select **McGraw-Hill Campus LTI 1.3**.

4. Do NOT name the activity. Click on **Select content**.

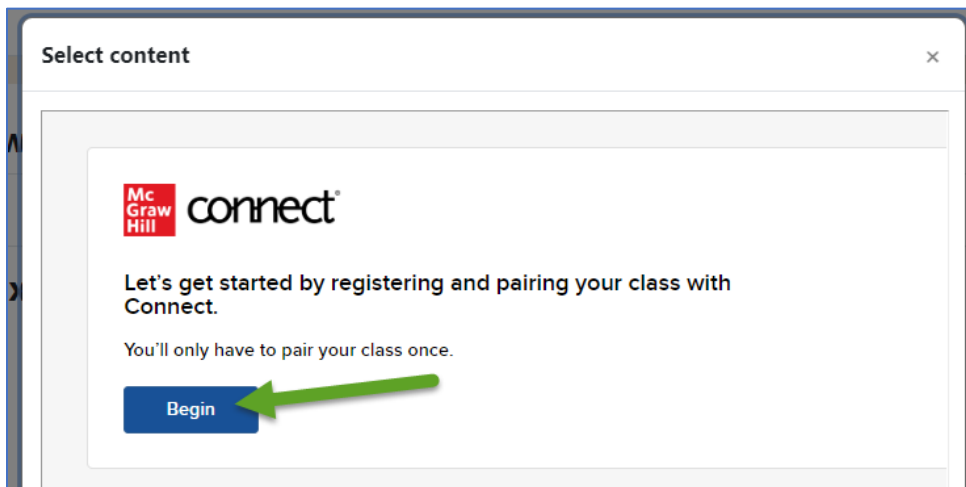

▼ **General**

Activity name

McGraw Hill connect

Let's get started by registering and pairing your class with Connect.

You'll only have to pair your class once.

Begin

6. **Sign In** or create an account using your OCCC email address.

McGraw Hill connect

Welcome Joshua Moore

We have found an existing account with email address:

Duplicate this section

11. Rename the copied section under **New section name** to match your course in Moodle, then click **Continue to new section**.

Duplicate section

You are about to duplicate this section.

- All of its assignments and eBook annotations will be copied into the new section.
- Student data and links with other instructors will not be copied.
- To save time, set up your section completely before you copy it.

Duplicate section: MASTER BIO 1114 Fall 2023
