

Application for Emissions Test Waiver and Vehicle Emissions Repair Report Form

In accordance with 7 Del. Admin.C. [1126](#) and [1131](#), to be eligible for a waiver, the following criteria must apply:

- The vehicle must have failed emission testing two or more times.
- The vehicle did not fail for visible smoke or any missing emission control equipment.
 - Engine parameters are set to the vehicle manufacturer's specification.
 - The minimum repair cost threshold must be met.
- The vehicle needs to be repaired within 90 days from the original date of inspection.

Owner's Name

Owner's Address

City, State, and Zip

County of Residence

Tag Number

Manufacturer

Model Year

Model

Vehicle Identification Number (VIN)

Repair Facility Name and Address

Certified Technician and Cert ID

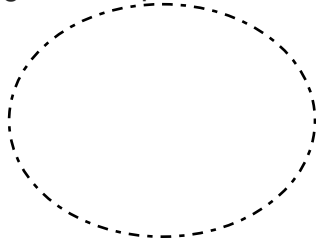

Vehicle repairs may be obtained through a Certified Emission Repair Technician (CERT) depending on the model year and county of residence. Repairs must be emission related and meet or exceed the cost threshold to qualify for a waiver. All forms must be accompanied by **original receipts** regardless of who makes the repairs. The table below provides the dollar amount threshold required to be eligible for an emission waiver.

Model Year	Location	Expenditure	NON-CERT completed repairs	CERT completed repairs
1968 - 1980	Statewide	\$75.00	Parts only	N/A
1981 - 1995	Sussex	\$450.00	Parts only	Parts/labor
1996 - newer			N/A	Parts/labor
1981 – 1995	Kent & New Castle	\$1146.00	Parts only	Parts/labor
1996 – newer			N/A	Parts/labor

To find a list of qualifying Certified Emission Repair Technicians, click [here](#).

Visit dmv.de.gov for more information.

If repairs are completed by a CERT, all information must be complete. All original receipts must be retained and the form stamped by the CERT. Approved waivers must be accompanied by all original receipts.

Verified \$1146 Expenditure (model year 1981 and newer Kent & New Castle Counties)

The table below **must** be completed by the CERT who completed the repair(s). Please describe the actual repairs made in relation to the Diagnostic Trouble Code(s) (DTC) identified on the Vehicle Inspection Record (VIR).

Description of Repair for DTC identified on VIR	Parts Amount	Labor Amount	Total Cost
TOTAL			

Labor Total \$

Note: Hazard/waste/shop fees are not to be included in the Total Cost of Repairs.

In accordance with 7 Del. Admin. C. § 1126 and 7 Del. Admin. C. § 1131, I certify, under penalty of law, that the information contained herein is true and correct. I also understand that false representation by me can lead to penalties as provided by law as follows: Falsifying information on this waiver application is a Class A misdemeanor and may result in a fine up to \$1000. Original to the Department of Natural Resources and Environmental Control.
